SECTION B: (40 Marks)

Answer ALL questions in this section

5. Read the following passage and answer the questions that follow.

HIV /AIDS appeared as the one among the dangerous STDs around the world. HIV stands for Human Immune Deficiency virus. This virus attacks and weakens the body immunity of an individually. HIV lives in the body fluids such as blood, vaginal fluid or semen of infected person.

The virus is spread when this fluid gets into the body of an uninfected person. Transmission can be through sexual intercourse with an infected person, blood transfusion from an infected person and an infected mother to her baby during delivery and breast feeding. The transmission also can be by sharing unsterilized surgical instrument such as knives, razor blades and syringes with infected person.

AIDS has the following symptoms; frequent fevers, loss of body weight, loss of appetite, diarrhea and shingles.

Through the blood test, one can ensure whether she/he is infected or not. It is not advisable for a person with HIV/AIDS to deliberately spread the diseases to other people. She/he is instead advised to consult HIV/AIDS counselors so that she/he may get more information to feel comfortable and live hopefully.

In protecting against HIV/AIDS one should ensure that she/he avoids unsafe sex, avoiding the uses of unsterilized syringes, razor blades, knives, avoiding blood transfusion from an infected person and avoiding open lip kissing.
