Candidate's Number .....

SMZ

ZANZIBAR EXAMINATION COUNCIL

FORM THREE ENTRANCE EXAMINATION 2014

MATHEMATICS

TIME: 3:00 Hours

INSTRUCTIONS TO CANDIDATES

1. This paper consists of TWO sections A and B.
2. Answer ALL questions in Section A and any FOUR questions in section B.
3. Each question in Section A carries 7 marks while each question in Section B carries 11 marks.
4. ALL WORKING must be clearly shown in both sections.
5. Calculators and mobile phones are not allowed in the examination room.
6. Write your examination number on every page in the spaces provided.
7. You are required to circle each question you have attempted in the Question number "column".

Candidate's Number .....

SECTION A (60 MARKS)

a) List down all factors of

i) 16

(ii) 24

Hence find the greatest common factor (GCF) of 16 and 24.

b) i) Round off each of the numbers 8.7, 69.5, 210.11 and 146.8 to th nearest unit.

ii) By putting the rounded numbers in b(i) above, approximate the value of the numerical expression:

$$\frac{146.8 \times 210.11}{69.5 \times 8.7}$$

Scanned by CamScanner

Candidate's Number .....

2. a) Simplify: $(3\frac{1}{2} + 4\frac{3}{5}) \times 2\frac{1}{2}$

b) i) Increase 75 by 8 percent

ii) Decrease 12½ by 12 percent

3. a) Perform the following operations

i) (5km + 50m + 3000cm) + (2km + 25m + 500cm)

giving your answer in metres

Scanned by CamScanner

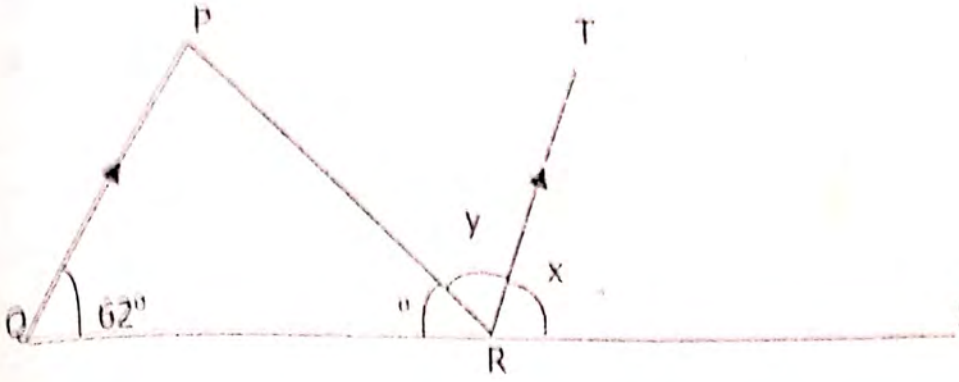

ii) (3.5 litres + 500 millilitres) – (1.8 litres + 700 millilitres)

giving your answer in milliliters

b) A person changed 450 US dollars and obtained 765,000 T. shillings. Wh
was the exchange rate in T. shillings per dollar?

Scanned by CamScanner

4. a) In the figure 1 below, find the size of the angles marked by the letters x and y.

(figure 1)

b) A rectangular garden of length 24 metres has an area of 240 metre square. Determine:

i) Its width

Scanned by CamScanner

ii) The length of its diagonal

a) What number must be added to the expression $x^2 + 6x + 7$ to make it a perfect square?

b) Ali is now 12 years younger than her sister Masha. The ratio of their ages three years ago was 1:3.

i) Translate the above statement into a mathematical equation.

Scanned by CamScanner

ii) Hence, by solving the resulting equation find their present ages.

c) Solve for t : $4t - 2(5 - t) = 8 - 3(t + 1)$

Scanned by CamScanner

a) Rationalize the denominator and simplify

$$\frac{\sqrt{6}}{\sqrt{6}-\sqrt{3}}$$

b) Obtain the values of x and y such that $2^{x-y} = 16$ and $3^{x-y} = 9$

Scanned by CamScanner

7. a) Determine the exact values of:

i) $\sqrt{2}\,(\cos 45^0 + \sin 45^0)$

ii) $2\sqrt{3}\cos 30^0 - \tan 45^0)$

b) If $\cos P = \frac{15}{17}$ where P is acute angle, find the value of

i) Sin P (ii) tan P

Scanned by CamScanner

8. a) Solve for y

$$\log_{10}(y+7) = \log_{10} y + 1$$

b) Find the value of $\log \sqrt[3]{\left(\frac{b}{a}\right)^2}$ given that log a = 1.83 and log b = 2.73

Scanned by CamScanner

c) Suggest any four ways of reducing Industrial pollution in the World

Scanned by CamScanner

b) i) Plot the points A(4,0), B(0,3) and the origin on a graph pa what is the common name of the resulting shape when thes points are joined?

ii) Calculate the length of the line from A to B.

10. a) i) How many subsets are there in a set with three (3) elements?

Scanned by CamScanner

ii) List down all subsets of the set S = {a, b, c}

b) Out of 200 students appeared in Form Three Entrance Examination, 140 passed Mathematics and 100 passed Physics. If 40 students failed both subjects. Find by using a Venn diagram; the number of students who passed.

i) Both subjects

(ii) Physics but not Mathematics

Scanned by CamScanner

11. a) i) Express the equation $\frac{x+3}{x-1} = 2(x-5) + 11$ in the form $x^2 + bx + c = 0$ where b and c are integers.

ii) Solve the resulting equation in part 11 (a) (i) above by factorization method.

Scanned by CamScanner

b) Given that $m * n = \frac{1}{2}(m + n) - m$. Evaluate $(9 * 17) * 6$.

2. a) If A:B = 3:4 and B:C = 5:6, find C:A.

Scanned by CamScanner

b) In setting the selling price P of an article, a shopkeeper doubled its price. What will be the profit of the article whose selling price is T. Shillings 46,500?

13. a) In the figure 2 below, AB = 4cm, BC = 3cm and the area of the re ACDE is $20m^2$.

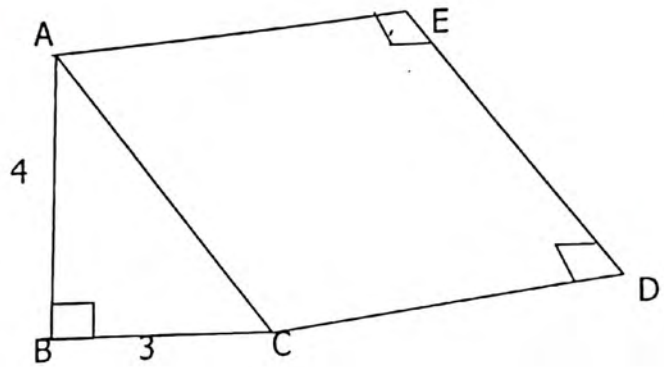

Figure 2

i) Determine the perimeter of the polygon ABCDE.

Scanned by CamScanner

ii) What is the name given to this polygon?

b) Figure 3 shows triangles KLM and KPN.

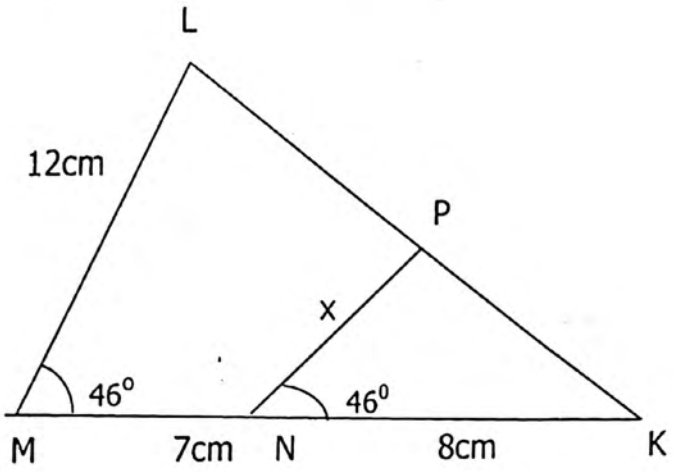

Figure 3

i) Show that these triangles are similar

Scanned by CamScanner

ii) Using similarity property, calculate the length of the side labele
x.

14. a) The ages of 30 people (adults) who attended a clinic on one parti
were recorded as follow.

35	46	41	59	55	47	38	32	27	35
52	45	40	56	49	53	33	42	39	36
43	42	53	41	43	29	32	25	38	44

i) Prepare a frequency distribution which includes cumulative
frequencies by grouping the ages into class intervals 25-29,
34, ---, 55 – 59.

Scanned by CamScanner

ii) Hence draw the cumulative frequency curve (ogive).

Scanned by CamScanner

b) Ten (10) packets of a chemical are such that, five (5) weigh 20.01g three (3) weigh 19.98 g each and 2 weigh 20.03g each. Calculate mean (average) mass of the packets.

Scanned by CamScanner
